IGC has been retained by MOBI ("Company"; "Mobi"), on an exclusive basis, to advise the Company in its M&A process ("Transaction"). This material ("Information Memorandum") describes and summarizes the Company, its assets, market and economic and financial indicators and has been prepared exclusively to assist the recipient in deciding whether it wishes to proceed with a further investigation of a possible Transaction with the Company. In no event shall the recipient use any of this information for any commercial purposes or for purposes other than the one for which this memorandum is furnished.

All information contained in this Information Memorandum has been prepared based on documents and/or information provided by the Company or obtained directly by IGC through legal sources and/or independent research. IGC has not investigated, verified or audited the documents and information used for the preparation of this Information Memorandum. This Information Memorandum contains statements, estimates and projections provided by the Client concerning anticipated future performance, which may or may not prove to be correct. No representations, expressed or implied, are made as to the accuracy of such statements, estimates and projections.

This Memorandum of Information is not intended to form any part of the basis of any investment decision and should not be considered as a recommendation by the Company or IGC to any reader. Each reader must make its own valuation of the Transaction in order to determine whether to continue with its participation in the process. No liability is or shall be attributed to the members of IGC, including its partners, directors or employees, in connection with the accuracy or completeness of the information contained herein.

This material belongs to IGC and shall not be copied, reproduced, distributed and/or disclosed, in whole or in part, including by digital media, to any third party without the express and prior written consent of IGC. By accepting this material, the recipient agrees to return it as soon as requested by IGC and to maintain in strict confidentiality all information contained herein. Since the existence of the Transaction is not publicly disclosed, the recipient agrees not to approach or contact any officer, employee, client, supplier or representative of the Company without the express written permission of IGC.

All communications, questions and/or requests regarding this material shall be addressed directly to IGC.

Executive Summary

Compass

EXECUTIVE SUMMARY

01

Mobi

Mobi at a glance

A leading platform in corporate employee transportation (fretamento), reaching ~BRL 140 Mn of net revenue in 2025

+20 years of experience

One of the leading platforms in corporate mobility, serving industrial, agribusiness and consumer-goods clients across the Midwest and Southeast of Brazil

Recurring, blue-chip portfolio

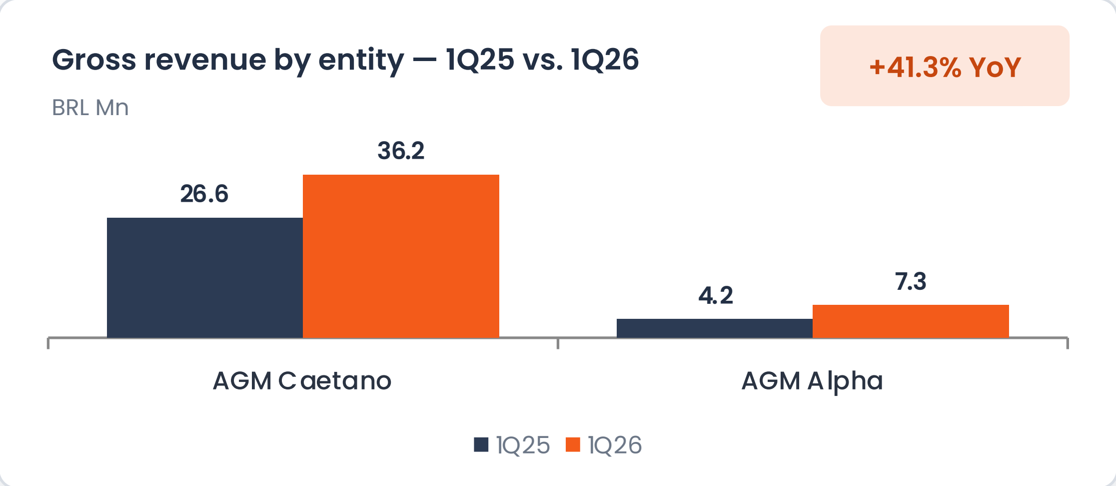
A strong base of long-term recurring-revenue contracts with blue-chip clients, reflecting trusted, long-standing partnerships

Modern, fully-owned fleet

373 vehicles with an average age of ~6 years[1], spanning buses, micro-buses and vans for a flexible, tailored service offering

Reliable, technology-enabled ops

GPS-based telemetry and driver-monitoring systems, with in-house maintenance capabilities [to be confirmed], ensuring high performance



HIGHLIGHTS

~BRL 140 Mn
Net revenue 2025

~BRL 36 Mn
EBITDA 2025 (~26% margin)

~BRL 198 Mn
Fleet value[2]

373
Vehicles · 100% owned

Source: Company; Jan-2026 fleet register. (1) Owned assets; avg fleet age of 4 years per Company materials vs. ~6 years per chassis manufacture year – to reconcile. (2) Owned assets. (3) To be confirmed with Company.

02

Mobi

INVESTMENT THESIS

Mobi is well positioned for continued growth

A resilient, contracted business model supported by strong structural value drivers

01

Exposure to a large, structurally growing market

Structural demand for corporate employee transportation is driven by clients' operational needs, a national shortage of professional drivers, and labor regulations (NR-31) requiring compliant transport where public transit is inadequate.

02

Solid, contracted revenue model with high stickiness

Long-term contracts (3–5 years) with built-in annual adjustment mechanisms (IPCA, collective-bargaining agreements and diesel-price pass-through) protect margins and reinforce client retention.

03

An asset base that compounds competitive advantage

A modern, fully-owned fleet of 373 vehicles across buses, micro-buses and vans creates operational flexibility, service-quality control and barriers that are hard for competitors to replicate.

04

Integrated capabilities that deliver a full-service edge

GPS-based telemetry and driver-monitoring systems — combined with in-house maintenance capabilities [to be confirmed] — position Mobi as a reliable, high-uptime operator across its network of bases.

05

Multiple, executable growth avenues

Geographic expansion, fleet electrification, technology-enabled services and consolidation of a fragmented market create a clear and executable path for continued value creation.

Source: Company; press research. NR-31 refers to Brazilian rural-labor safety regulation on worker transport.

INVESTMENT THESIS

A solid track record with blue-chip clients

Mobi has consistently focused on long-term contracts across industrial, agribusiness and consumer-goods sectors

SELECTED CLIENTS

- Votorantim cimentos
- Cargill
- JBS
- KraftHeinz
- MBRF (Marfrig, brf)
- Heineken

Strategically positioned across the Midwest and Southeast

From its Goiânia headquarters to 10 operational bases across Goiás, the Federal District and Minas Gerais

States with operational bases

Headquarters — Goiânia, GO

Corporate HQ (Garagem Central) centralizing fleet management, monitoring infrastructure and administrative functions

10 ACTIVE OPERATIONAL BASES

Anápolis – GO

Largest base outside HQ, supporting fleet availability across the Goiás corridor

Brasília – DF

Garagem BSB supporting operations across the Federal District

Senador Canedo – GO

Support base close to client sites, enabling faster response times

Uberlândia – MG

Serving the Triângulo Mineiro region with strong execution oversight

1	**10**	**3**	**373**
Headquarters	Operational bases	States covered	Vehicles deployed

Source: Company; Jan-2026 fleet register.

Technology-enabled operations support high reliability

GPS-based telemetry, driver monitoring and operational discipline keep the fleet running reliably

GPS TELEMETRY & DRIVER MONITORING

GPS-based tracking and AI-powered driver-fatigue monitoring provide continuous oversight of fleet and drivers across all bases

ERP & MANAGEMENT

TOTVS Protheus underpins enterprise resource planning and back-office control

FLEET & MAINTENANCE MANAGEMENT

Specialized systems manage maintenance workflows, parts and fleet operations

SAFETY, PPE & INSPECTION

Digital checklists, PPE control and safety management reinforce operational discipline

Source: Company. Availability and preventive-maintenance metrics, and scope of in-house maintenance, to be confirmed with management.

Multiple avenues for continued value creation

Geographic expansion, consolidation and fleet electrification position Mobi for a sustained growth trajectory

A

Deepen wallet share & expand geographically

- Well positioned to grow share with existing clients while winning new logos
- Expansion within the Goiás–DF–Minas Gerais corridor and selectively into adjacent regions leverages existing bases and relationships

B

Fleet electrification & tech-enabled services

- Gradual electrification responds to clients' ESG and Scope-3 commitments
- A technology layer (route optimization, booking apps, carbon dashboards) can further strengthen client stickiness

C

Consolidate a fragmented market

- The Brazilian corporate-transportation market remains highly fragmented, with consolidation already underway
- Mobi's scale and track record position it as a natural consolidation platform for smaller regional operators

Source: Company; press research. Growth avenues to be validated with management.
