

Welcome to Brazil — Invitation and Practical Guide

Prepared for Lars Corneliusson and Henrik Carlborg, Ferronordic · Mon 21 – Fri 25 September 2026 · São Paulo · Sumaré · Belo Horizonte / Contagem · Curitiba

INVITATION

Dear Lars and Henrik,

It is our great pleasure to welcome you to Brazil. Over the coming days you will meet the management team, walk through our operations in Sumaré and Contagem and see at first hand the people and the operating model presented in the Information Memorandum. This page gathers the programme, travel arrangements and practical notes; the IGC team will accompany you throughout.

Luiz Gustavo Rocha

Chairman of the Board · Tracbel

Practical notes

Flights & transfers

Terminal BTG Pactual is a private terminal beside T3: you are met at the aircraft, immigration, customs and luggage are handled privately, and your driver waits at its exit. Private legs: passport at FBO check-in, arrive ~30 min before wheels-up, soft luggage (limit — TBC).

Confidentiality & conduct

Refer to the process only as “Project Yellow”. Most Tracbel employees are unaware of it: on site you will be introduced as (agreed narrative — TBC); first names only, no business cards on the shop floor, deal topics only in closed sessions. No photos or recordings without permission.

Dress code & safety

Business casual for management sessions (jacket, no tie needed). Workshops and yards: long trousers and closed, sturdy shoes — Tracbel provides high-visibility vests, safety glasses and hearing protection, with a short safety briefing on arrival.

Weather, time & health

Spring: São Paulo 15–26 °C (showers possible), Belo Horizonte 17–29 °C (dry), Curitiba 11–23 °C (cool, rainy) — pack a jacket and umbrella. Brazil is 5 h behind Zürich (UTC–3). No vaccination is required for entry; CDC/WHO recommend yellow-fever vaccination for these states — ask your travel clinic.

Money, power & connectivity

Currency BRL; cards and contactless work almost everywhere; restaurants add a 10% service charge — no further tip expected. Sockets 127 V (some 220 V), type N: Europlugs fit, Swiss 3-pin and Schuko plugs need an adapter. EU roaming or a travel eSIM works well. Portuguese on site — IGC will interpret.
