

US\$ 4.6 bn of identified opportunity by business unit

49 valued programmes across 21 countries and six regions — the demand already identified behind the three units

Identified commercial opportunity — total contract value, US\$

Identified opportunity is the total contract value of every signed contract and open commercial opportunity in the Company’s commercial review, at face value and unweighted; a further six identified programmes carry no value yet and are excluded.

The three pages that follow take each unit in turn

- Munitions Capacity is already built
- Energetics Revenue is contracted, not forecast
- Missile The unit becomes the group’s engine

Where the opportunity sits — by end-user region
