Project Compass

IGC has been retained by MOBI (“Company”; “Mobi”), on an exclusive basis, to advise the Company in its M&A process (“Transaction”). This material (“Information Memorandum”) describes and summarizes the Company, its assets, market and economic and financial indicators and has been prepared exclusively to assist the recipient in deciding whether it wishes to proceed with a further investigation of a possible Transaction with the Company. In no event shall the recipient use any of this information for any commercial purposes or for purposes other than the one for which this memorandum is furnished.

All information contained in this Information Memorandum has been prepared based on documents and/or information provided by the Company or obtained directly by IGC through legal sources and/or independent research. IGC has not investigated, verified or audited the documents and information used for its preparation. This Information Memorandum contains statements, estimates and projections provided by the Client concerning anticipated future performance, which may or may not prove correct. No representations, expressed or implied, are made as to their accuracy.

This Memorandum of Information is not intended to form any part of the basis of any investment decision and should not be considered a recommendation by the Company or IGC. Each reader must make its own valuation of the Transaction to determine whether to continue in the process. No liability is or shall be attributed to the members of IGC, including its partners, directors or employees, in connection with the accuracy or completeness of the information contained herein.

This material belongs to IGC and shall not be copied, reproduced, distributed and/or disclosed, in whole or in part, including by digital media, to any third party without the express and prior written consent of IGC. By accepting this material, the recipient agrees to return it as soon as requested by IGC and to maintain strict confidentiality over all information contained herein.

Since the existence of the Transaction is not publicly disclosed and may not be known by members of the Company or third parties, the recipient agrees not to approach or contact any officer, employee, client, supplier or representative of the Company without the express written permission of IGC. In furnishing this material, IGC undertakes no obligation to provide access to additional information or to update it, and reserves the right, at any time and without notice, to change the procedure for the Transaction or terminate negotiations prior to the execution of any binding agreement.

Mobi at a glance

An urban mobility platform with +20 years of operations, serving employees of large corporations and residents of condominiums

Essential mobility platform

Route-optimized transportation for corporations and condominiums, supporting a recurring-revenue model

Scaled operational platform

Modern fleet backed by intensive monitoring and telemetry, tailored to serve clients' needs

Visible, resilient cash flow

Long-term contracts (3–5 years) with built-in price adjustment mechanisms supporting margin resilience

Strategic footprint

Headquarters in Goiânia plus 10 operational bases across Goiás, the Federal District and Minas Gerais

KEY HIGHLIGHTS

Two complementary fronts within one platform

Mobi combines corporate employee transportation with urban mobility for condominium residents, across two operating entities

Corporate transportation

83% of 1Q26

- ▶ Route-optimized employee transportation (fretamento) for industrial, agribusiness and consumer-goods clients
- ▶ Long-term contracts (3–5 years) with IPCA, CBA and diesel pass-through adjustment mechanisms
- ▶ Blue-chip portfolio including Heineken, Roche, Kraft Heinz and Cargill

AGM Caetano **BRL 36.2 Mn** 1Q26 gross revenue · **+36% YoY**

Condominium & urban mobility

17% of 1Q26

- ▶ Route-optimized transportation for residents of condominiums, extending the platform beyond the corporate segment
- ▶ Operated through AGM Alpha (Matriz Brasília), leveraging the same fleet, monitoring and operating standards
- ▶ Fastest-growing front: +74% gross revenue growth in 1Q26 (YoY)

AGM Alpha **BRL 7.3 Mn** 1Q26 gross revenue · **+74% YoY**

Executive Summary

▶	INTRODUCTION	04
▶	INVESTMENT THESIS	08
▶	COMPANY OVERVIEW	14
▶	FINANCIAL HIGHLIGHTS	21

Mobi is well positioned for continued growth

A resilient, contracted business model supported by strong structural value drivers

1

Essential mobility platform in a structurally growing market — consistent demand from corporations and condominiums, a national driver shortage and labor regulations (NR-31) sustain recurring demand

2

Solid, contracted revenue model with high stickiness — long-term contracts (3–5 years) with IPCA, CBA and diesel pass-through adjustments protecting margins

3

An asset base that compounds competitive advantage — a modern, fully-owned fleet (+400 vehicles) creating flexibility and hard-to-replicate barriers

4

Integrated capabilities delivering a full-service edge — GPS telemetry and driver monitoring, with in-house maintenance [TBC], for a high-uptime operation

5

Multiple, executable growth avenues — geographic expansion, fleet electrification, technology-enabled services and consolidation of a fragmented market

Source: Company; press research. NR-31 = Brazilian rural-labor safety regulation on worker transport.

1 A solid track record with blue-chip clients

Long-term contracts across industrial, agribusiness and consumer-goods sectors — serving +50 clients

+400

Vehicles²

BRL 200 Mn

Value of the fleet³

100%

Owned fleet²

FLEET COMPOSITION (OWNED, JAN-26)

LEADING CHASSIS & EQUIPMENT BRANDS

A **fully-owned, modern fleet** creates operational flexibility and barriers that are hard to replicate

3 Technology-enabled operations support high reliability

GPS telemetry, driver monitoring and operational discipline keep the fleet running reliably

GPS Telemetry & Driver Monitoring

GPS-based tracking and AI-powered driver-fatigue monitoring provide continuous oversight across all bases

ERP & Management

TOTVS Protheus underpins enterprise resource planning and back-office control

Fleet & Maintenance Management

Specialized systems manage maintenance workflows, parts and fleet operations

Safety, PPE & Inspection

Digital checklists, PPE control and safety management reinforce operational discipline

Intensive **monitoring and telemetry** ensure a high level of service across the network

4 Multiple avenues for continued value creation

Geographic expansion, consolidation and fleet electrification position Mobi for a sustained growth trajectory

**A**

Deepen share & expand geographically

Grow wallet share with existing clients and win new logos; expand within the GO-DF-MG corridor and selectively into adjacent regions, leveraging existing bases

**B**

Electrification & tech-enabled services

Gradual fleet electrification aligned to clients' ESG and Scope-3 goals; a technology layer (route optimization, apps, carbon dashboards) deepens stickiness

**C**

Consolidate a fragmented market

A highly fragmented Brazilian market with consolidation underway; Mobi's scale and track record position it as a natural platform for smaller regional operators

A clear and **executable path** for continued value creation

Executive Summary

▶	INTRODUCTION	04
▶	INVESTMENT THESIS	08
▶	COMPANY OVERVIEW	14
▶	FINANCIAL HIGHLIGHTS	21

A track record built over more than 20 years

Mobi has +20 years of experience in urban mobility and corporate employee transportation

More than **two decades** of disciplined operation, positioned for its next phase of growth

Strategically positioned across the Midwest and Southeast

From its Goiânia headquarters to 10 operational bases across Goiás, the Federal District and Minas Gerais

States with operational bases

1

Headquarters

10

Operational bases

3

States covered

+400

Vehicles

Headquarters — Goiânia, GO

Corporate HQ (Garagem Central) centralizing fleet management, monitoring infrastructure and administration

10 ACTIVE OPERATIONAL BASES

Anápolis – GO

Largest base outside HQ, supporting fleet availability across the Goiás corridor

Brasília – DF

Garagem BSB supporting operations across the Federal District

Senador Canedo – GO

Support base close to client sites, enabling faster response times

Uberlândia – MG

Serving the Triângulo Mineiro region with strong execution oversight

A recurring, contract-based revenue model

Revenue is generated through long-term transportation contracts across two operating entities

Dedicated fleet contracts

Long-term contracts (3–5 years) providing dedicated vehicles, drivers and routes, billed on a recurring monthly basis

Route & shift management

Transportation planned around client shifts, sites and condominium routes, with telemetry ensuring reliability and safety

Two operating entities

Revenue consolidated across AGM Caetano and AGM Alpha, together reaching BRL 140 Mn of net revenues in 2025
