

US\$ 4.6 bn of identified opportunity by business unit

49 valued programmes across 21 countries — 1.1x the entire 2026–32 revenue plan, already identified commercially

Identified commercial opportunity — total contract value, US\$

Munitions

Mac Jee Indústria de Defesa

Aerial bombs, artillery, rockets, fuzes and launcher vehicles — already in serial production

Energetics

Mac Jee Tecnologia

Turnkey TNT, RDX and HMX production lines delivered to sovereign customers worldwide

Missile

TMC — The Missile Company

Cruise missiles, air defence, anti-radiation systems and rocket motors for European and Gulf primes

Identified opportunity is the total contract value of every signed contract and open commercial opportunity in the Company's commercial review, at face value and unweighted; a further six identified programmes carry no value yet and are excluded. Coverage compares it with cumulative gross revenue in the 2026–32 plan.

The three pages that follow take each unit in turn

- Munitions

 Capacity is already built
- Energetics

 Revenue is contracted, not forecast
- Missile

 The unit becomes the group's engine

Where the opportunity sits — by end-user region
