Practical notes

Travel & who arranges what

International flights: Ferronordic. Everything in Brazil — BTG Pactual terminal, cars, private flights, hotels and the CWB → GRU flight: Tracbel. On the private legs carry your passport for FBO check-in and arrive about 30 minutes before wheels-up.

Confidentiality & conduct

Refer to the process only as “Project Yellow”. Most Tracbel employees are unaware of it: on site you will be introduced as (agreed narrative — TBC); first names only, no business cards on the shop floor, deal topics only in closed sessions, no photographs.

Dress code & safety

Business casual for the management sessions — a jacket is enough, no tie needed. In workshops and yards: long trousers and closed, sturdy shoes. Site PPE and a safety briefing (to be provided by Tracbel — TBC).

Weather, time & health

Spring: São Paulo 15–26 °C (showers), Belo Horizonte 17–29 °C (dry), Curitiba 11–23 °C (cool, rainy) — bring a jacket and an umbrella. Brazil (UTC–3) is 5 h behind Zürich. No vaccination is required to enter; CDC and WHO recommend yellow fever for these states.

Money & connectivity

Currency BRL; cards and contactless work almost everywhere and restaurants add a 10% service charge, so little cash is needed. Sockets 127 V, type N: Europlugs fit, Swiss and Schuko plugs need an adapter. Roaming or a travel eSIM works well.
